

National Association of Adult Survivors of Child Abuse
www.NAASCA.org

Dear Sirs and Madams:

For years now, we've presented child abuse and trauma as a Civil Rights issue, and challenged the Federal Government to address what we believe should be among the highest priorities in our country, by creating a Department of Children's Security.

We've discussed it in those terms over and over on our web site, talk shows and social media.

We have a singleness of purpose at NAASCA, to address issues related to childhood abuse and trauma including sexual assault, violent or physical abuse, emotional traumas and neglect -- and we do so from two specific perspectives:

1) educating the public, especially as related to getting society over the taboo of discussing childhood sexual abuse, presenting the facts that show child abuse to be a pandemic, worldwide problem that affects everyone

2) offering hope for healing through numerous paths, providing many services to adult survivors of child abuse and information for anyone interested in the many issues involving prevention, intervention and recovery

In addition, we've been following and repeatedly presenting both the Australian Royal Commission's work (ever since its inception) and the important ongoing Statute of Limitations work at SOL-reform.com, with articles and radio show discussions, for several years.

The National Association of Survivors of Child Abuse represents ALL victim/survivors of ALL types of child abuse and trauma. Our NAASCA family members represent perhaps the most inclusive and diverse global activist/service groups one can find.

Please include us as co-signators in all your efforts.

We feel very strongly about these issues, a National / Federal Commission / Department and SOL Reform in ALL the States, and we'd be delighted to help you present these topics and perhaps engage even more interest in the issues of child abuse and trauma.

We invite fellow activists and survivors to consider appearing as "special guests" on our Internet-based, six-night-a-week "Stop Child Abuse Now" talk radio shows (now also being aired in several broadcast radio markets).

Perhaps you'd like to be a "special guest" some time on our talk radio show. They're easy to do -- you just call in. If interested, send me an email to the address below and I'll forward some additional info.

We need to stop the silence. Together we can do what we cannot do alone!

Yours in service,

Bill Murray
